

## Sudbury Developmental Services

## Services pour handicaps

### développement de Sudbury

"Sudbury Developmental Services is a community-based agency that assists individuals with developmental disabilities as they pursue their maximum potential. The individuals come first. Their needs will be met with respect, compassion, and with accountability in both official languages."

Such is the Mission of Sudbury Developmental Services/Services pour handicaps de développement de Sudbury.

Sudbury Developmental Services shall provide individualized supports and services that foster community integration, social inclusion, and choices, while guaranteeing individual rights. All individuals with a developmental disability will live in an accessible, inclusive community in full citizenship.

In 1953, a group of proactive and progressive parents formed The Sudbury and District Association for Retarded Children and later the Association for the Mentally Retarded.

In 1987, the agency changed its name to Sudbury and District Association for Community Living and in November, 2000, at a Special Membership Meeting, our operating name became CGSDS/SHDVGS to better reflect and focus on who we are and the individuals we serve.

In 2004, the Agency changed its name to Sudbury Developmental Services.

Our service provision consists of Respite care, Residential Services, Life Skills/Vocational Day Services and Supported Employment Services.

Like so many other non-profit organizations, we are in need of adequate funds to provide these supports needed to attain the goals of the Agency.

You can help by purchasing an Agency membership card for the modest sum of \$15 per family or \$10 for a single membership. This membership entitles you to be involved, to receive SDS/SHDS Annual Report and to vote at the Annual General Meeting. The monies raised from the sale of memberships can, for example, be used to fund special activities for our clients, enhance existing programs or purchase much needed equipment and mobility aids. Kindly return the attached application form to our main office.

We are proud to be your local Agency for the developmentally disabled members of our community. Join us in ensuring the provision of accountable programs and services that truly meet their needs.
